## 1997 S.C.O. ANNUAL MEETING AND CONFERENCE - PETERBOROUGH, ONTARIO

Following the successful conference in Fredericton, New Brunswick, this past summer, S.C.O. began plans for the next one. On **7-9 August 1997**, we will gather at Trent University, in Peterborough, Ontario. The beautiful Trent campus will provide an agreeable setting for what should be another stimulating and exciting gathering. A symposium is planned on links between research and monitoring of bird populations, a growing focus of avian conservation efforts in both Europe and North America. The conference also will include oral and poster papers on any topic of avian biology, a closing banquet, and field excursions.
